Re: *Notice of Ex Parte Presentation*

Preserving the Open Internet, GN Docket No. 09-191;
Framework for Broadband Internet Service; GN Docket No. 10-127

Dear Ms. Dortch:

On Monday, December 13, 2010, I called the Commission to speak to Commissioner Copps regarding issues related to the proceedings on Preserving the Open Internet and a Framework for Broadband Internet Service. I was unable to reach Commissioner Copps, and left him a voicemail message. On Tuesday, December 14, 2010 I followed up with an email to the Commissioner.

The purpose of the message and email was to express support for the middle ground solution proposed in Chairman Genachowski's draft Open Internet order, and to urge Commissioner Copps to reject calls for additional regulation, and support a compromise that will protect an open Internet, while ensuring that investment and innovation continue.

Sincerely,

A handwritten signature in black ink, reading "Fabian Núñez". The signature is written in a cursive, flowing style.

Fabian Núñez,
Former Assembly Speaker for the State of California
1414 K Street, 6th Floor
Sacramento, CA 95814
